# lisci \_7 mm

smooth panels \_7 mm

Pannelli in truciolare impiallacciato e controbilanciato liscio disponibili in una vasta gamma di essenze, anche in versione grezza.

## **caratteristiche strutturali**

---

Pannello in truciolare impiallacciato e controbilanciato.  
I rivestimenti lisci per interni non sono finestrabili.

## **verniciatura**

---

Essenza: è preventivamente sottoposto a tinteggiatura di uniformazione, è finito con vernice poliuretanica trasparente satinata.

Laccate: il pannello è laccato con vernice poliuretanica satinata.

## **pulizia**

---

Pulizia del rivestimento da polvere o altre impurità usando esclusivamente acqua tiepida ed eventualmente sapone neutro.

*Smooth veneered chipboard panels matching on both sides, available in a wide range of wood type, also in the unfinished version.*

## **structural features**

---

Veneered and counterbalanced chipboard panel.  
The smooth panelling for interiors cannot be glazed.

## **painting**

---

If in wood: the panel previously undergoes an evening painting treatment and is finished with clear satin polyurethane varnish.

If lacquered: the panel is lacquered with satin polyurethane varnish.

## **cleaning**

---

Clean the panelling from dust or other impurities using only luke-warm water and, if necessary, neutral soap.

## artisanal&design

Dierre aumenta la possibilità di personalizzazione dei pannelli:

- compensato marino 78 7mm
- lisci 7 mm per interni

Con l'EXTRA "**artisanal&design**" è possibile abbinare delle fasce scegliendo tra una gamma di finiture per realizzare un pannello unico.

*Dierre increases the customisation possibilities of the panels:*

- 78 7 mm marine plywood
- flush 7 mm for interiors

With the EXTRA "**artisanal&design**" it is possible to combine bands by choosing from a range of finishes to create a unique panel.

Stampa a base acqua con effetto legno  
*Water-based print*

Mdf  
*Mdf*

7 mm

I Magic Wood sono realizzati mediante stampa a base acqua con effetto legno. Morbidezza e calore del legno unitamente a uniformità, resistenza e durata nel tempo.

## **caratteristiche strutturali**

---

Il disegno è riprodotto su pannello a base MDF mediante rulli fotoincisi che eseguono un'applicazione di inchiostri mediante sincronizzazioni elettroniche.

## **verniciatura**

---

La verniciatura a base acqua. Vengono utilizzate le stesse vernici dei pannelli in legno in modo da ottenere la stessa morbidezza e lo stesso calore.

## **pulizia**

---

Pulizia del rivestimento da polvere o altre impurità usando esclusivamente acqua tiepida ed eventualmente sapone neutro.

*The Magic Woods are water-based printed with wood effect. Smoothness and warmth of wood in conjunction with uniformity, strength and durability over time.*

## **structural features**

---

The pattern is reproduced on an MDF-based panel with photo-engraved rollers, which apply inks through electronical synchronization

## **painting**

---

Water-based painting. The same varnishes are used as for the wood panels to ensure the same smoothness and warmth.

## **cleaning**

---

Clean the panelling from dust or other impurities using only lukewarm water and, if necessary, neutral soap.

# nobilitati laminati \_7 mm

laminated veneered \_7 mm

Pannelli in MDF rivestiti con carte decorative opportunamente trattate e supportate da diversi strati di pergamene vegetali impregnate con resine base acqua e/o film plastici a seconda delle necessità che garantiscono particolare durata e resistenza.

Una soluzione tecnica e conveniente, disponibile in più colori e venature che riproducono le essenze del legno, ed in soluzioni di finiture super matt, o superfici scrivibili.

## **caratteristiche strutturali**

---

Pannello in mdf controbilanciato

## **pulizia**

---

Pulizia del rivestimento da polvere o altre impurità usando esclusivamente acqua tiepida ed eventualmente sapone neutro.

*MDF panels coated with decorative and properly treated papers and supported by several layers of vegetable parchments impregnated with water-based resins and/or plastic films, depending on needs, ensuring special durability and strength.*

*This technical and low-cost solution is available in several colours and with different veins, to reproduce the wood essences, with super-matt finish solutions or write-on surfaces.*

## **structural features**

---

Counterbalanced MDF-based panel

## **cleaning**

---

Clean the panelling from dust or other impurities using only lukewarm water and, if necessary, neutral soap.
